Dear Harold,

Received your mailing of 1/28. I will restrain myself from offering unsolicited and redundant suggestions about your health, but from the pace you have been keeping you are certainly entitled to whatever vacation you want to take.

Comments on Vallee page separately. WDSU film sounds possibly important.

Hope you will do what Rhoads suggests and prepare a specific list of what has been denied you. If Bud agrees that this is worthwhile he might be able to make a copy for Jim and me; we could probably add citations, etc.

The Guidebook for Marines, which you asked about, is described in CD 87, SS 200, p. 1. Pages 1, 91, 145, and 189 had something added. There is no indication here that a copy was made of these pages.

Sincerely,

Paul
